***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2,5,6,9 and 10, there is no antecedent basis for "the provision means".

In claim 8, there is no antecedent basis for "the breathing maneuvers".

In claim 11, there is no positively recited method steps being performed. The scope of this claim is not readily determinable.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Stenzler-6435175.

Stenzler discloses an aerosol delivery device whereby a cartridge with personal patient and drug delivery regimen data is provided in memory in a cartridge which can

be uploaded to a delivery device. A modem can also be used to transmit patient or delivery data. See col. Col. 1 line 66-col. 2 line 42; col. 3 line 66- col. 4 line 39; col. 5 lines 37-67; col. 6 lines 20-54; col. 8 lines 27-30.

***Information Disclosure Statement***

The information disclosure statements (IDS) submitted on 05-21-01 and 09-20-01 and are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

***Inventorship***

In view of the papers filed 09-09-02, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(\*\*\*). The inventorship of this application has been changed by adding Bernhard Mullinger.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
